Good morning Ms.

I just spoke with regarding the fact that she left the building to get food for lunch and return to each in your classroom. Please know the expectation for all students is to eat in the cafeteria and not the classroom. I have explained this to her so please support that protocol to not allow them to eat beyond their assigned lunch time. I had to speak to a large number of students in your 3rd block when you were out with a sub a few weeks ago when more than half the class had takeout after their lunch time and eating in the room.

If you have any questions or concerns please let me know!

I am not aware of any such expectation. Several of my students come and go from JCC, thus bring food so that they are not later than they need to be. I am aware that non-JCC students should not have left the building, but that is the only issue from your email that I was aware of.

Regardless, beginning tomorrow, I will inform all my 3rd block lunch students that you require them to go to the cafeteria. I do hope this will solve whatever problem you are finding here. Thanks for letting me know.

If you find that students that are coming from JCC are not given ample time to eat, we could look at a more appropriate time for your class to eat lunch. Would a 3rd or 4th lunch be better for them to have time to get to your class? I would love to find a solution for everyone to be consistent. Thank you again for your support.

I have some that come late, some that leave early, and all their days vary. A middle lunch (2 or 3) would be worse, as all JCC students would necessarily miss even more time. I added a message to their GClassroom that they were to go to the cafeteria beginning tomorrow, and to be back on time or be marked tardy. I suspect that this should solve whatever the issue was. If this affects any JCC who need to pick up lunch, I will send them too to the cafeteria, with a pass for them to return when finished, and we will just have to see case-by-case how much class time is missed. Thanks.

Thank you so much! I just want to make sure that you were also supported with your needs in the classroom but eating inside the classroom has become an epidemic that we are trying to address. Again I think you for your support! Please let me know if I can help out in anyway
